### VI. Calendar Review

Reminder for Golf Outing - men's at Moss Ridge at 8:00 AM; women's at Falls Golf Club at 10:00 AM; please call ahead to reserve a spot with Diane French or Rich Bosowski

### VII. Flares Sales ( \$2.00 members / \$3.00 non members Starts June 21 at store buy today here)

### VIII. HLB Report - Katie

Muck pellets - unable to measure differences, therefore, a cessation in the process until an accurate method is developed.

A group has been hire to collate records; many actions are on hold until reporting from the contracted group is complete.

Next meeting of the HLB is July 15, 2019 at 6:30 PM in White Cloud

### IX. Public Comment

1. Need to monitor Savin during chemical application to assure proper job is completed.
2. Post on web site dates for Saven to spray for weeds.
3. Sponsor a trash pickup day (should occur everyday).
4. Dredge the lake - costs millions; wait on study before acting; DEQ has not allowed dredging; where does the muck go afterwards; individual dredging may cost as much as \$5000; septic companies indicate 95% of the septic systems do not drain into the lake; water quality is good, it's the clarity that is bad; ideally, the results of 3 year study will be before next years meeting - if not, a special meeting may be called to report to membership on the findings.

### X. Adjournment - 10:43 AM
