Twing stated that he had received an invitation to a presentation by Dale Owinga, who owns a local company, who is the major supplier on many lake items including aeration equipment and muck pellets. Twing stated it was very informative and this gentleman would probably come to one of our meetings if asked.

9. Public Comment:

Public commented during presentation also discussed the carp and possibility of DNR poisoning the carp. Tony was also asked about time frame and what was best timing. The question was asked if will we be getting reports before the end of contract and action can be taken if we find out something earlier depending on if we could spend the money for that.

10. Miscellaneous

It was discussed on how Tony might provide information to outside citizens and how to handle such request. It was determined that Tony could handle some things directly, but would bring most things through the board.
